Customer Reviews

I use this series for my JH Jazz band. Teaches ideas for solos in segments and then builds on that. Pretty good for improvising, but most of my students lean toward doing written solos.

If you've never lead a jazz group, or have a mixed level or junior high group this is a perfect way to start. I've used every song in this book several times over the past 11 years and continue to use it, along with the Advanced series. I have a 7-12 group so I have to mix it up as needed. Each book has a play along discs, but few of my students actually do the work, so I make them play along with
the exercises in rehearsals. It really helps them learn to read, faster than most methods. It also walks them through the process of improvisation in a way that is very accessible, and very helpful.

Great for working on rhythm. Before you know it you are improvising. Step by step approach to improving site reading and rhythm.

Great condition.
