Customer Reviews

This is the second book in this series and they must be read in order. Hattie is attempting to get to her normal life after being taken by the Vargas Cartel in Mexico. Ryker told her to go home and give Evan a second chance so that's what she did. However she can't seem to move on. Evan is pressuring her to get back to her normal self. She is afraid that she will never be able to move on from what happened; that she will never be that girl again. Everything is so jumbled up in her head.

She wants to see Ryker again but she fears what will happen if she does. The she does see him and all her feelings for him come back. Whenever she is with him everything seems so clear. The way they feel about each other is all that matters. Hattie will learn things she that will make her second guess lots of things. Who will Hattie choose; Evan, Ryker, or neither? Ryker is determined to prove to Hattie how much he cares about her. Evan wants to secure his families political future by marrying Hattie. I enjoyed this book a lot. Everyone is telling Hattie what she should do or how she should feel. Vera is the only one who seems to care about what Hattie wants or feels. Ryker is trying to figure out how to protect Hattie but also protect his family. He may have to choose between the two but will it be the right choice; or did he ever really have a choice? This book is just as emotional as the first. All the characters are put through so much. Hattie constantly feels like she is being pushed and pulled and played like a puppet. There are a lot of twists and turns in this book and series. The ending came as a bit of a surprise but was needed to keep the series going. I have my suspicions as to what happened at the end but only the third book will tell.
