## Bruce Lee: The Biography

## Synopsis

Finally, the truth can be told about Bruce Lee's remarkable life and tragic death. Close personal friend and director of Bruce's greatest movie, Robert Clouse, reveals his first-hand memories of Bruce and includes interviews with Bruce's family, friends and colleagues in order to tell us the true story of how Bruce lived and died. Also included are numerous photos, many never before made available to the public.

## Customer Reviews

This is a very good biography. Most of the other books regarding Bruce's life are more into his films and don't get into much more than that. This book has very detailed accounts of his life. There is some great stuff in here about how Bruce and his Chinese friends would goad the English boys into fights when he was young (to test their skills). Also he staged all kinds of practical jokes on people! He had a great sense of humor! I was very happy to read about his trips to India (attempting to film *The Silent Flute*). Absolutely great stuff in here. Some very touching stories in here, too. He attempted to marry a Japanese girl several times, but it didn't work out. She wasn't interested in marrying him. There is some very good stuff in here. They have some great pictures in here, too, but sometimes they spread them over two pages where it doesn't make sense to do that because the spine of the book is over his head or something, so I wish they would have done a better job laying out the pictures. I also would have liked to see the book in color, and I don't know why they put an artist's drawing of him on the cover when there are so many excellent actual pictures of him.

But that's ok the material here is very good.

Is Robert Clouse capable of writing above the 8th grade level? After reading "The Making of Enter the Dragon" and then the first two-thirds of this one (I couldn't take anymore) I have my doubts. He isn't a bad director. He IS a bad writer, unless he is a master sandbagger. I have been a Bruce Lee fan for more than 20 years so I naturally thought I would love this book. I didn't. It was one of the few books that I was unable to finish. After 125 pages, I just couldn't bear to have my intelligence insulted any longer. Neither will you. Buy this for your 12 year old nephew who watches Kung Fu theatre and who takes Tae Kwon Do lessons at the YMCA. He will love it.

This book presents an excellent pictorial biography of Bruce Lee. It lacks detailed information on his life but compensates for this by presenting excellent pictures of Bruce in his daily life and in his screen endeavours.

This is the most well-written Bruce Lee biography that I have ever read. I'm a huge fan and I collect BL biographies, fyi.

I've always loved Bruce Lee! It was very informative. Plus, gotta love the photos. Would recommend this book to everyone.
