Alice Cooper, Golf Monster: A Rock 'n' Roller's 12 Steps To Becoming A Golf Addict
The man who invented shock rock tells the amazing and, yeah, shocking story of how he slayed his thirsty demons "with a golf club. It started one day when Cooper was watching a Star Trek rerun between concerts, bored and drunk on a quart-of-whiskey-a-day habit; a friend dragged the rocker out of his room and suggested a round of golf. Cooper has been a self-confessed golf addict ever since. Today he and his band still tour the world, playing some one hundred gigs a year . . . and three hundred days out of that year, Cooper is on the course. Alice Cooper, Golf Monster is Cooper’s tell-all memoir; in it he talks candidly about his entire life and career, as well as his struggles with alcohol, how he fell in love with the game of golf, how he dried out at a sanitarium back in the late ’70s, and how he put the last nails in his addiction’s coffin by getting up daily at 7 a.m. to play 36 holes. Alice has hilarious, touching, and sometimes surprising stories about so many of his friends: Led Zeppelin and the Doors, George Burns and Groucho Marx, golf legends like John Daly and Tiger Woods . . . everyone is here from DalÃ- to Elvis to Arnold Palmer. This is the story of Cooper’s life, and also a story about golf. He rose from hacker to scratch golfer to serious Pro Am competitor and on to his status today as one of the best celebrity golfers around “all while rising through the rock ‘n’ roll ranks releasing platinum albums and selling out arenas with his legendary act. From the Hardcover edition.

Alice Cooper, the godfather of shock rock, has been on the music scene for nearly forty years. During that time, he has sold multiplatinum albums, toured the world, battled alcoholism and the rock star lifestyle in general, and become one of America's most respected celebrity golfers. And now, Alice has released Alice Cooper, Golf Monster, his autobiography, which is a most enjoyable read. Cooper wrote Golf Monster collaborating with Keith and Kent Zimmerman, who also co-authored Sex Pistol Johnny Rotten's memoir. Alice Cooper, Golf Monster is a tell-all memoir that alternates between Cooper's life story and his own "twelve step program" for becoming a golf addict. Alice's sense of humor has been his trademark as a songwriter, and that humor is present throughout this book. Golf Monster follows Cooper's life (born Vincent Damon Furnier in 1948) from his childhood in Detroit to his teenage years in Phoenix when he formed his first band, the Earwigs, through his forty-plus year musical career and his battle with the alcohol addiction that nearly destroyed his marriage and ended his life. Alice's close friendship with longtime manager Shep Gordon is also covered in this book. Pop culture buffs will love this book, which is filled with anecdotes of Cooper's exploits with his many celebrity friends and acquaintances, from Frank Sinatra to Groucho Marx, Fred Astaire to Jack Benny, Salvador Dali to Peter Sellers. Many of Alice's colleagues from the rock music industry are here, including Paul McCartney, John Lennon, The Who, Elvis, Frank Zappa, Jim Morrison and Pink Floyd. Alice Cooper, Golf Monster is filled with lots of fascinating tales for readers to enjoy.
