Straight forward, NO unnecessary 'talk'. Covers all you need to get going. The photos are old and not overly sharp, but are ok. Its a handy small size , to really use and carry. Ease of use is the key here, There are lots of more indepth books, but I find slogging thru them makes for often unfinished understanding. Learn this book and you will be an average picker , ready to play and or go higher. ****I WISH BANJO BOOKS (including this one.) WOULD ADD STANDARD MUSIC NOTATION, as well as TAB, for the MANY folks that CAN read!.. It makes it easier to work on timing and also to play with others.

I purchased this book 6 years ago with the cassette tape to accompany. I leant it to someone and never received it back so I purchased it again. A great book to learn the basic strums and a few songs to get you going on the 5 string banjo
