Synopsis

Hailed in Italy as the best book ever written about the mafia in any language, Cosa Nostra is a fascinating, violent, and darkly comic account that reads like fiction and takes us deep into the inner sanctum of this secret society where few have dared to tread. In this gripping history of the Sicilian mafia, John Dickie uses startling new research to reveal the inner workings of this secret society with a murderous record. He explains how the mafia began, how it responds to threats and challenges, and introduces us to the real-life characters that inspired the American imagination for generations, making the mafia an international, larger than life cultural phenomenon. Dickie's dazzling cast of characters includes Antonio Giammona, the first "boss of bosses"; New York cop Joe Petrosino, who underestimated the Sicilian mafia and paid for it with his life; and Bernard "the Tractor" Provenzano, the current boss of bosses who has been hiding in Sicily since 1963.

Customer Reviews

"The inspiration of far too much pulpy entertainment, the Italian mobsters under John Dickie’s microscope in Cosa Nostra have long cultivated outsiders’ tendencies to romanticize their supposed honor and loyalty. But Dickie demonstrates definitively that the centuries-old mafia has never been more than an illegal business and shadow state pursuing 'power and money by cultivating the art of killing people'." — The Washington Post

His is the first truly definitive English-language study of this myth-laden subject, and it is a pleasure to read...his book is notable for shrewd judgments couched in language that is vibrantly memorable. His acquaintance with the island and his immersion in the wider modern Italian culture also allow him to convey the noxious
The Italian-American mafia has its roots in a mysterious and powerful criminal network in Sicily. While the mythology of the mafia has been widely celebrated in American culture, the true origins of its rituals, laws, and methods have never actually been revealed. John Dickie uses startling new research to expose the secrets of the Sicilian mafia, providing a fascinating account that is more violent, frightening, and darkly comic than anything conceived in popular movies and novels. How did the Sicilian mafia begin? How did it achieve its powerful grip in Italy and America? How does it operate today? From the mafia’s origins in the 1860s to its current tense relationship with the Berlusconi government, Cosa Nostra takes us to the inner sanctum where few have dared to go before. This is an important work of history and a revelation for anyone who ever wondered what it means to be “made” in the mob. --This text refers to an alternate Paperback edition.
